I am plodding along and taking life just as easy as I can. Am selling good straight goods for cash at a moderate profit, and I find it a first-rate way to do business and keep my trade. I don't aim to become rich in one year. Have no particular extra bangup bargains to offer; no old stock on hand; no wife at present (I am sorry to say) to blow in my wealth (she's visiting her relatives east.) No book accounts to worry over. If there is anything that will fret a merchant and keep him full of grief, it is old book accounts against Tom, Jack and the Devil. Tom's account is good when it rains; Jack's when you get it, and the Devil's is no good, rain or shine.
